EXECUTIVE SUMMARY

01 / 04

IronHull USA is a Service-Disabled Veteran-Owned Small Business delivering cybersecurity and maritime OT security services to government and commercial customers. We provide **security assessments, RMF/ATO support, EDR/XDR and ITDR deployment, zero trust architecture, and security awareness training**, alongside TAA-compliant IT modernization. Led by a 20-year U.S. Coast Guard veteran with a cybersecurity background, IronHull brings an operator's understanding of maritime and port environments, aligned to the USCG Marine Transportation System cyber rule.

CORE COMPETENCIES

02 / 04

CYBERSECURITY SERVICES

- Security assessments and RMF/ATO support
- EDR/XDR and ITDR deployment and tuning
- Zero trust architecture design and implementation
- Security awareness training delivery

MARITIME OT & IT MODERNIZATION

- Maritime OT risk assessment aligned to USCG cyber rule
- TAA-compliant IT hardware & software provisioning
- Infrastructure planning and modernization roadmaps
- Technical integration and implementation support

KEY DIFFERENTIATORS

03 / 04

SDVO SB CERTIFIED	Federal set-aside acquisition pathway
OPERATIONAL LEADERSHIP	20-year Coast Guard maritime & cyber background
SECRET-CLEARED PRINCIPAL	Active Secret clearance for sensitive engagements
MANUFACTURER-CERTIFIED	Certified in leading endpoint & network security platforms
TAA COMPLIANT	Regulatory-aligned delivery from engagement through closeout

FOUNDER'S BACKGROUND

04 / 04

- Founded and led by a 20-year U.S. Coast Guard veteran with hands-on maritime, cyber, and IT experience – not corporate past performance.
- Forward-focused targets: U.S. Coast Guard, DHS, U.S. Navy, U.S. Air Force, U.S. Army, NOAA, port/maritime authorities, and state & local government.
- Manufacturer-certified in leading endpoint and network security platforms, with experience across complex technical environments.
